
Welcome to Vancouver Island Centra Windows!

Mary Ann Moore

Centra Windows Ltd. invites you to their Grand Opening this Saturday, May 31 from 10 a.m. to 4 p.m. Join the celebration at 2132 Northfield Road in Nanaimo for refreshments and prize draws. Bring the kids! Shell Busey, BC Home Expert, will be available to answer your home improvement questions between 11 a.m. and 3 p.m. You will have a chance to meet some of the key Centra Team Members including Ed Vandermeer, Vice President of Installations, and Mark Brandow, Sales & Marketing Manager from Centra Windows in Langley. Centra's 59 employee-owners will be celebrating their 25th anniversary in 2009. This is a company committed to quality and service excellence.

The Nanaimo location will have an Office Administrator, Lindsay Tamm, two estimators and an installation crew. Centra keeps everything in-house - manufacturing their own windows and using only Centra employees who are trained and certified to install their products, never out-sourcing to third-party subcontractors. By controlling all aspects of their customers' projects, Centra provides consistently high quality in product, installation and after-sale service. To make Centra windows even more attractive to homeowners, from now through June 30, Centra's No Tax Event means you pay no tax when you upgrade to Centra's ecoSMART windows. And if your purchase includes 10 or more windows, even more discounts are available.

Centra Windows is the Number One energy retrofit specialist company servicing the Lower Mainland and Southern Interior areas of British Columbia and is now pleased to offer high-quality home improvement services to Vancouver Island. Centra's primary concern is customer satisfaction. From start to finish, their premium line of tested, weatherproof products and

comprehensive manufacturing process ensure uncompromising quality. This dedication applies to all their products: windows, casements, awnings, patio and French doors, security doors and exterior siding. You'll see samples of all these home improvement products in their showroom and be impressed by their Lifetime Warranty package.

Centra understands that changing one part of your home can affect the overall performance of your home so they incorporate house-as-a-system technology which assists you in maximizing provincial and federal energy grants that are currently available to help with window replacement costs.

You will be further impressed with Centra's environmental responsibility practices which include recycling programs at their plant as well as environmentally friendly disposal of construction site waste materials.

Centra has been honored by BC Hydro in their Power Smart Awards of Excellence. In 2007, they were awarded Marketing Partner of the Year, and this year were recognized in the category of Workplace Conservation Leadership. Centra continues to lead the way with ecoSMART windows that are ENERGY STAR rated, a sure sign of Centra's commitment to environmental sustainability.

"We haven't inherited the Earth from our parents; we have borrowed it from our children," wrote Antoine de Saint-Exupery. Keeping that sentiment in mind, Centra is committed to providing top quality energy-efficient windows and doors that will shelter future generations in confidence for many years to come.
