

Centra Windows presents Nanaimo Winner with Garden Window

by MARY ANN MOORE

Don and Marian Craig are the lucky winners of a beautiful Garden Window from Centra Windows Ltd. The contest was province wide so it was a delightful surprise to the Craigs and to the staff of Centra Windows in Nanaimo to have a local couple claim the prize.

The Craigs, who live in Sherwood Forest with an amazing view of Departure Bay, are not going to stop at a Garden Window; they're having all their windows replaced as well as their front door. As Dennis Breckon, Sales Rep, says, "This is the best time to buy windows with all the government grants available as well as Centra's Silver Savings Event." Centra is celebrating 25 years of service this year with some great discounts.

Until March 31, 2009, you can trade in your old energy-wasting windows and save \$135 off the cost of each new Centra ecoSMART Window. Here's how it works: Centra's trade-in discount is \$75, which is applied to your contract at the time of purchase. Both the federal government's EcoEnergy Retrofit Incentive and the BC government's LiveSmart Incentive provide a \$30 rebate for each window in their mail-back grant programs.

Centra offers a Life Time Warranty on frames, sealed units and labour that is transferable for 20 years. Come and visit the friendly folks at Centra's bright showroom to see how you can save energy and greatly enhance the beauty of your home. Be sure to ask any of the Centra staff about a free, in-home estimate.
