

Centra Windows Customer Wins \$5,000 from BC Hydro Power Smart

MISSION, BC: Forced to take an early retirement from a tough job due to back problems stemming from 30 years of working with rebar, Mission's Clive Mason had some time to think about upgrading his windows. His choice wasn't just a good one – it paid off with a \$5,000 prize from BC Hydro's Win Your Windows Purchase Contest.

“We are thrilled that a Centra Windows customer, Clive Mason, won Hydro’s contest,” says Crissy Ram, Marketing Manager, Centra Windows Ltd. “Centra’s full service approach to window replacements means we take the time to fully explain the benefits of ENERGY STAR®-certified windows and educate consumers about all promotions. We also manufacture and install our Centra ecoSmart windows in-house to ensure worry-free window renovations from start to finish and beyond.”

Mason, who has lived in his Mission home for 20 years, decided to upgrade his windows to make his home more energy-efficient to save on heating bills, he also wanted to increase the value of his home. He chose Centra because of their strong warranties for both product and labour.

With his new Centra windows now installed, Mason got the news that he had won the \$5,000 prize in the contest. He's very happy with his new windows, and very pleased that a big chunk of the costs for installing them have been covered by the prize money.

"Not only do ENERGY STAR®-certified windows save energy, but they'll help me save on heating costs in the years to come," said Mason, whose career included work on major projects such as the Tilbury Island cement plant and the Port Mann Bridge renovations.
