

## Entry Door Features

### Designed for Longevity

24 gauge galvanized steel or compression moulded fibreglass for incredible durability.

### Continuous Perimeter

Provides a thermal break between surfaces to prevent condensation and frost buildup.

### Security Strike Plate

Provides reinforcement in the critical lock area and peace of mind for homeowners.

### Compression Weatherstripping

Provides a tight, weatherproof seal and reduces heat loss from the home.

### Aluminum Clad Sill

Thermally broken and designed to ensure a tight seal.

## Custom Features

### Design

Choose from multiple door panel options that complement your home's style.

### Passage Hardware

Choose from a range of handles, levers, and knobs to complement your door slab.

### Doorlite Options

Choose between simple or decorative glass, as well as extras such as internal blinds.

### Transom Styles

Choose from rectangular, extended camber, raked, peaked, or half-round transoms.

## Door Slab Colour Options

|                                                                                    |                 |                                                                                     |                 |
|------------------------------------------------------------------------------------|-----------------|-------------------------------------------------------------------------------------|-----------------|
|  | Sunshine Yellow |  | Charcoal Shadow |
|  | Lucky Red       |  | Coffee Bean     |
|  | Auburn          |  | Soft White      |
|  | Twilight Navy   |  | Dusty Sage      |
|  | Centra Blue     |  | Eucalyptus      |

Final paint colour may appear different from photography or digital colour samples.
