

FEATURED JOB DETAILS:

Avonlea Housing Society is a 56 unit multi-family house complex located in Abbotsford. Centra Windows supplied and installed over 300 windows and patio doors. The owners had selected Centra's Experience Series window as it utilizes a built-in brick mould trim to transition between the siding and the window. One of the main features of this product will be the ability to replace the existing vinyl siding in the future with new siding and not having to remove the new windows.

MATERIALS USED:

Centra's Experience Series windows and doors with a built-in brick mould trim
